Photo iDentification Solution

Securing Your School!

User friendly iD Systems, for seamless integration into your daily work flow.

With over 20 years experience in the iDentification business Custom iD Systems has combined the best iD products into our packages. There are multiple printers, software's and cameras out in the market to choose from. CiDS has taken the most reliable, easy to use iDentification products and created simple straight forward systems to choose from.

iD Systems come in two base systems, with the iD printer being the main difference. Choose the Zenius with print speeds of 25 seconds per card, in a single sided printer. Step up to the Primacy for printer speeds of 19 seconds per single sided card. The Primacy is field upgradeable to a duplex model, if your needs ever change. Please review the printer brochures for more in depth product information and specifications.

Our Zeniu system comes with an HD Webcam. The Webcam is capable of producing crisp detailed photos, with adjusted light settings. While our Primacy systems boast a professional DSLR camera, with built in flash. Giving you better picture quality without the need to adjust settings. The built in flash helps to insure a clear picture, for each person.

iD systems include a printer, software, camera, ribbon, cards, on-site installation with training and a loaner printer program.

PRIS-PROF-DSLR

Custom iD's help create a safe campus environment. Designed with school colors and mascots, they boost

iD Systems Packages

Full Color Poster Maker

Easily and quickly create posters and banners for use throughout your school!

It's as easy as 1-2-3-PRINT!

Never before has there been a large-format color imaging system capable of producing brilliant full-color posters or banners, and eye-catching signage — while also retaining the flexibility to grow with you as your needs arise.

Introducing the new Epson® SureColor T-Series

Developed using the latest advancements in performance imaging, like our exotic Epson PrecisionCore® TFP® printhead, robust media handling, optional 36"- wide multifunction copy, scan, and share technologies, along with our breakthrough pigment ink technology — Epson UltraChrome® XD — the SureColor T-Series could be the way you print your next big idea.

Easily and quickly create vibrant eye catching posters and banners for use throughout your campus. High-level printer quality at entry-level printer prices.

Create eye-popping print for....

- Activities and Events
- Administrative Communications
- Classroom Visuals
- Student Recognition
- Post Rules and Standards in Classrooms
- Promote Fundraisers
- Sell Posters from Dances, Banquettes, Award Ceremonies, Homecoming or Prom for an ROI.

Lamination Equipment

XYRON PRO2500—COLD LAMINATOR

The Xyron 2500 is a complete document finishing system. This Xyron laminator instantly applies laminate, adhesive or both without using electricity or heat. Easy to use; simply feed your item in, turn the handle and trim. If you are looking for a machine to apply a perfect layer of adhesive, the Xyron 2500 is ideal. The Xyron 2500 produces no fumes, no mess from sprays which saves, time, trouble and money. Trim the laminate to the edge of your document without worrying about peeling. These are already a must for advertising companies, but now more and more schools and classrooms are switching to the Xyron Pro 2500.

A better, safer laminating experience

The plastic laminate doesn't melt and stick to the rolls which gives no odor. Without heat there is no chance of burns or fire hazard. Making cold laminators the practical choice for schools, offices, and mixed working environments. They are ideal for untrained or unsupervised staff who still have a need for the machine.

P/N: XYRN2500
Laminating Width: 25in
Price: \$1495 +S&H

P/N: XYRN4400
Laminating Width: 42in

GBC Ultima 65 - HOT LAMINATOR

With the Ultima 65 laminator, it's easy to protect and preserve your most important printed teaching tools. The EZload film system makes loading fool-proof, while the pivoting feed table provides easy access for film changing. AutoGrip shafts make adding and removing standard film a breeze. All together, these features shorten film loading time by 50%, making this laminator the perfect choice for busy educators. 27" width is perfect for laminating classroom posters, charts and more. EZload film rolls are color coded for easy and accurate loading every time. Pivoting feed table eliminates the need to remove the table while loading .
